

EXTERMINATION NOTICE

Every apartment in this building will be exterminated on _____, 20____,
between the hours of 10:00 am and 4:00 pm.

We ask your cooperation on this date of the following items:

1. If you cannot be home at this time, please leave a note on your kitchen counter indicating particular areas which have pests and call the office so we can bring access keys.
2. For maximum effectiveness, please remove any food items and utensils from kitchen cabinet shelves and drawers. Cover these items and place away from kitchen cabinets and counters so these areas may be treated effectively.
3. Keep your children and pets away from treated areas for a minimum of two hours.
4. If any food, glassware or utensils appear to be contaminated by insects or insecticide, please wash carefully in HOT water before using.
5. Clean sanitary conditions in your apartment reduce the insect population. Please don't wash off the insecticides. These chemicals work for several weeks after being applied. GIVE THEM A CHANCE TO WORK.
6. Your strict compliance with this program is required. We regret any inconvenience, however, we are confident you will agree it is worth the effort.

Thank you for your cooperation.
